Brief description of the Transnational cooperation:

1. Problems to be solved (justification of the need of the transnational cooperation)

The Platform is located in Frankfurt/ Oder (D) and Słubice (PL) and aims to be used by a worldwide community of academics. Therefore, an international board of editors, mainly based in Poland and Germany from a variety of academic disciplines has to work together. Information on research projects and events in Poland should reach the global community of researchers on Poland. Also, Polish academics should get easier access to conferences and academic meetings abroad.

2. Objectives to be achieved

While daily communication and information between the editors and the board in Frankfurt is carried out online, there has to be an annual assembly, where larger matters like structural challenges, publishing policy or special issues will be discussed. Also, the annual meeting helps to create an atmosphere of collaboration among the academics spread all over Germany and Poland – and the world.

3. Main transnational activities (as provisionally planned, to be confirmed with partners)

As an important part of the duties of Pol-Int, we are planning an annual meeting of the editors and interested reviewers of the platform to be held in the German-Polish border region. We are seeking partners to support and participate in these meetings.

4. Planned outputs, deliverables, results of TNC; expected outcomes (effects)

The successful output of www.pol-int.org will be a number of annual book reviews, and a collection of relevant

information on new publications, upcoming and recently concluded conferences, job offers, grants, as well as discussions and commentaries, inquiries, etc. for the academic community.

5. Useful and additional remarks:

Disclaimer: by sending the completed Project fiche, you agree for publication on the National Supporting Institution web site and dissemination to potential transnational partners for the purpose of effective implementation of transnational cooperation projects.
